How Will YOU End Homelessness?

Community Rally, Candidate Speak-Out & Sleep-Out

In 2005, with great fanfare, King County launched a “Ten Year Plan” to end homelessness. At the end of June 2015, those ten years come to a close. How are we doing?

The January 2015 One Night Count found 3,772 homeless people sleeping on the street without adequate shelter, an increase of 20% over last year. Including those in shelters and transitional housing, over 10,000 people in King County are known to be homeless.

This is unacceptable. We can do better. Join us for a Community Rally, where we will hear candidates in the upcoming local elections to share with us their plans for ending homelessness in Seattle and King County!
